

Jyl Peterson,
Board Member

My folks bought property on Lummi Island in 1956 when they had four small children. We spent the spring and summers sleeping out every night, hiking and rowing

to various land points (Lummi Mountain even then), and experiencing the openness of Island life. I have been on the island most of my life and have seen many changes and developments. Consequently I bring to LIHT this past vision of Lummi and a desire to protect what this beautiful island has for many generations to come. This vision reflects LIHT's mission statement.

My education is a degree in Physics and Mathematics but my life's career has been in the arts. My community involvement has been working with at risk high school students in education, volunteering duties for the Lummi Island Grange, and serving on an advisory committee for LIHT. I am currently on the Board of Directors for LIHT and am the president of the Lummi Island Saturday Arts Market.
