I'm here because Lummi Island is a beautiful place filled with amazing people. I formally moved to the island in 2005, but I've been coming here to spend time with family ever since I was young.

There are two things I enjoy most about Lummi Island, the incredible environment (the water, land and skies) and the community. Lummi Island is filled with a plethora of unique and special people who care deeply about their island.

I'm a member of the Heritage Trust because it's an organization I believe in with a mission I support. I want to help the Heritage Trust to protect and encourage the place and community which I love.
